

ALPHABETICAL SCHEDULE OF POSTER SESSIONS

SATURDAY, MAY 14

Antigen Processing and Presentation 1
B Cells and Autoimmunity
Checkpoints and Immune Regulation for Tumor Immunity
Cytokines, Chemokines and their Receptors in Tissue-targeted Disease
End Organ Disease in Autoimmunity
Hematopoiesis and Myeloid Cell Development
Host Defense and Immune Mechanisms
Host-Bacterial Interactions
Immunity to Viruses
Immunotherapy 1
Inflammasomes
Inflammation and Tumor Immunity
Late-Breaking Cellular Adhesion, Migration, and Inflammation
Late-Breaking Immediate Hypersensitivity, Asthma and Allergic Responses
Late-Breaking Immune Response Regulation: Cellular Mechanisms
Late-Breaking Lymphocyte Differentiation and Peripheral Maintenance
Late-Breaking Therapeutic Approaches to Autoimmunity
Late-Breaking Tumor Immunology
Late-Breaking Veterinary and Comparative Immunology
Late-Breaking Viral Immunology
Metabolic Function in Immunity
Molecular Mechanisms in Innate Immunity
Molecular Pathways in Autoimmunity
Mucosal Immunity to Bacterial Pathogens
Novel Vaccines/Immunotherapy to Protect from Viral and Bacterial Infection
Pathogen Control and Evasion Strategies
Regulating the Outcome of T Helper Cell Differentiation
Regulation of Immunity at the Lung Mucosa

Respiratory Viruses and the Host Immune Response
T Cell Regulation
T Cells in Health and Disease
Technological Innovations in Immunology 1
The Microbiota and Mucosal Immunity
Therapeutic Interventions for Immune-mediated Disorders
Virus-specific T Cell Activation, Differentiation, and Exhaustion

SUNDAY, MAY 15

Altered Immune Pathways in Disease
Antigen Processing and Presentation 2
Autoimmunity Triggers and Regulation
B Cell and CD4 T Cell Responses During Viral Infections
B Cell Development
Bacterial and Parasitic Infection and Immunity 1
Cellular Immune Responses at the Mucosa
Cytokine Regulation of Immunity to Eukaryotic Pathogens
Emerging Treatment Approaches in Neuroimmunology
Eukaryotic Host Defenses
Immunology Education
Immunoregulatory Roles for T and B Cell Responses Induced by Vaccines/Immunotherapy
Innate Cells in Autoimmunity
Innate Immune Cells and B Cells in Cancer
Innate Immune Regulation
Late-Breaking Cytokines and Chemokines and Their Receptors
Late-Breaking Innate Immune Responses and Host Defense: Molecular Mechanisms
Late-Breaking Mucosal and Regional Immunology
Late-Breaking Technological Innovations in Immunology
Late-Breaking Transplantation Immunology
Leukocyte Trafficking

SUNDAY, MAY 15 (CONTINUED)

Lymphocyte Activation and Differentiation
Mast Cells and IgE
Metabolism and Immune Regulation in Tumor Therapy
MicroRNAs and RNA Control

Molecular Basis for Mucosal Vaccines: Novel Strategies and Mechanisms
Natural Born Killers: The Cytotoxic Approach
Regulatory Lymphocytes
T Cell Development
T Cell Responses during Acute and Chronic Virus Infections
T Cell Subsets, T Cell Therapy, and Vaccines for Cancer
The Early Moments of T Cell Activation
Transplantation Immunology

MONDAY, MAY 16

Allergic Mechanisms
Asthma and Airway Inflammation
B Cell Activation and Terminal Differentiation
B Cell Regulation
Bacterial and Parasitic Infection and Immunity 2
Cytokine Regulation
Genetic Dysregulation in Immunodeficiencies and Immune-mediated Diseases

Immune Cell Trafficking and Immune Responses in the Tumor
Immune Regulation at Mucosal Surfaces
Immune Responses in Cancer Therapy
Immunosuppressive Mechanisms in Cancer
Immunotherapy 2
Inflammation and Disease
Inflammation and Infection at Mucosal Surfaces
Innate and Cellular Immune Responses to Viruses
Innate Immune Sensing and Signaling
Late-Breaking Antigen Processing and Presentation
Late-Breaking Basic Autoimmunity
Late-Breaking Hematopoiesis and Immune System Development
Late-Breaking Immune Mechanisms of Human Disease
Late-Breaking Immune Response Regulation: Molecular Mechanisms

Late-Breaking Innate Immune Responses and Host Defense: Cellular Mechanisms
Late-Breaking Microbial, Parasitic, and Fungal Immunology
Late-Breaking Vaccines and Immunotherapy
Lymphocyte Development, Homeostasis, and Aging
Metabolic and Mucosal Regulation
Molecular Signatures of Eukaryotic Pathogens
Novel Regulators of Cytokines and Chemokines
Novel Therapeutic Mechanisms in Systemic Autoimmunity
Regulatory Mechanisms of Innate Immune Responses
T Cell Cytokines and Autoimmunity
Technological Innovations in Immunology 2
Veterinary and Comparative Immunology
